Learn the art of blending and using Essential Oils

“Scent has the power to transform our emotions, and heal our bodies”

This course will introduce you to the secrets of these essential oils and you will learn how to identify, blend and apply the oils - whether it is to compliment the treatments you currently offer as a masseuse, start your own range of massage oils and skin care products, or simply to add harmony and balance to your own life.

The true therapeutic value of aromatherapy lies in the fact that the essential oils work on two levels - psychological and physical. For example, ylang-ylang is used for depression as well as for treating high blood pressure.

It is this dual effect which makes Aromatherapy one of the most popular alternative methods of treating and healing today.

Programme Type

The Art of Aromatherapy programme is a **Provider Programme**. INTEC offers three types of programmes, namely National Qualifications, Provider Programmes, and Agent Programmes:

National Qualifications are credit bearing qualifications registered on the NQF and accredited by a Quality Assurance Body.

Provider Programmes are unique to INTEC and are designed to increase and enhance your skills and knowledge within your chosen field.

Agent Programmes are programmes and qualifications for which INTEC offers tuition, but where INTEC does not issue the final certificate (the agent body issues the final certificate).

For more information about the types of programmes that INTEC offers, please see the INTEC General Brochure.

Career Opportunities

If you are a Beautician, working for yourself, or in a salon, Aromatherapy is an excellent addition to enhance the range of services you can offer to your clients.

Wanting to earn extra income – you can start your own business from home by making and selling a range of Aromatherapy products

A home user – you can use Aromatherapy to enhance your family's health and well-being.

Aromatherapy

This detailed course looks at every aspect of Aromatherapy, including distillation and storing the oils through to blending of oils and how to make a range of practical and fun items to use.
