INTEC
COLLEGE
Leader in Distance Learning

Build your future the INTEC way

Gain an insight into the exciting world of radio and make some airwaves of your own!

Communication and participation is a key element of broadcasting in the 21st century. If you are keen to get involved in the exciting field of radio broadcasting, this INTEC course could help you.

You can complete the theoretical part of the course in the comfort of your own home. When you're ready for the practical side of things, we will introduce you to the SABC Radio Broadcasting Facilities (RBF).

What are you waiting for?

We're here for you every step of the way!

Programme Types offered at INTEC College

- NQF** **National Qualifications** are credit-bearing qualifications registered on the NQF (National Qualifications Framework) and accredited by a Quality Assurance Body, such as a SETA (Sector Education and Training Authority). A skills programme is an accredited component of a national qualification.
- Agent Programme** **Agent Programmes** are programmes for which INTEC offers tuition, but where INTEC does not issue the final certificate. The Agent body issues the final certificate and manages the final examinations.
- INTEC Programme** **INTEC Programmes** are INTEC's own programmes that are not linked to the NQF and are not credit-bearing. However, they are in high demand and carry the approval of the INTEC Academic Board. INTEC Programmes fall into FIVE categories:
 - Career Programme** • **INTEC Career Programmes** are INTEC's own programmes that are designed to teach you the skills and knowledge to succeed in a particular career.
 - Career Booster** • **INTEC Career Booster courses** are continuous professional development (CPD) short courses that help you add to your current professional knowledge in a particular field, and hence boost your abilities within your career.
 - Career Starter** • **INTEC Career Starter courses** are short courses that introduce you to a particular field or career; and that offer you the opportunity to explore an interest or a skills set without having to enrol on a full programme.
 - Job Creator** • **INTEC Job Creator courses** were designed to refine your skills in a particular field of interest; to teach you how to make a living from a particular skill, interest or hobby, and to help you start your own business.
 - Self Enrichment** • **INTEC Self-Enrichment courses** are offered for self-enrichment purposes. They will add value to your experience of life in a particular chosen field of interest.

INTEC Radio Broadcasting Short Course Certificate

Career Starter

Programme Type

The INTEC Radio Broadcasting Short Course Certificate is part of the INTEC Career Starter Series. The INTEC Radio Broadcasting Short Course Certificate is an INTEC short course, which is not an accredited NQF qualification.

Career Opportunities

This course will give you a better understanding of how to present yourself over the radio. In the job market, you could assist a DJ with compiling and presenting everyday segments such as news, weather and sports.

Entrance Requirements

Grade 12 (Std. 10) or equivalent, or revalent work experience.

Course Duration

You should be able to complete this course within 12 months.

Course Content

The course will take a closer look at radio as a communication medium. It will also introduce you to 'must have' radio skills.

The course includes the following topics:

- How radio stations operate
- Programme management
- Show preparation
- Presenting

Assessment

All the required assignments must be completed and sent to the College for marking. All assignments must be successfully passed in order to obtain the award.

The Practical Component

If you want to improve your radio broadcasting practical skills, you can do so at an additional cost through the SABC Radio Broadcasting Facilities (RBF).

After you successfully complete the course you can contact the RBF national contact centre on 0861 723 723 to book a practical session at a venue near you. Please note that you will be given a studio and a sound engineer. You must be able to direct and take charge of your own demo recording. This session will be at the student's cost.

This practical component will give you a feel and understanding of working in a radio studio. You can use this "demo" afterwards to approach radio stations for possible employment.

Award

After you successfully complete the course, you will receive your INTEC Radio Broadcasting Short Course Certificate.

Included with your course

*INTEC College reserves the right to change the kit items without prior notice.

INTEC Digital Sound Engineering Short Course Certificate

Career
Starter

Programme Type

The INTEC Digital Sound Engineering Short Course Certificate is part of the INTEC Career Starter Series. The INTEC Digital Sound Engineering Short Course Certificate is an INTEC short course, which is not an accredited NQF qualification.

Career Opportunities

This course will introduce you to the Digital Sound Engineering field.

Entrance Requirements

Grade 10 (Std. 8) or equivalent, or relevant working experience, and you should be familiar with and be able to work on Windows 7, and have access to a computer with the following specifications:

- Intel/AMD Dual Core CPU
- 2GB of RAM

- Editing and processing audio
- Mixing a drum kit
- The correct approach to mixing
- Live-stage mixing

Assessment

All the required assignments must be completed and sent to the College for marking. All assignments must be successfully passed in order to obtain the award.

Award

After you successfully complete the course, you will receive your INTEC Digital Sound Engineering Short Course Certificate.

Included with your course

*INTEC College reserves the right to change the kit items without prior notice.

INTEC Digital Sound Engineering Short Course Certificate

Do you have an ear for sound and music?

Then this is the course for you!

Discover how to apply essential tools, such as effects and processors, while you edit audio. Also learn the valuable skill of digital mixing. You will find out about the frequency spectrum, equalisation and multi-track mixing.

INTEC Digital Music Production Short Course Certificate

Understand and apply music production techniques and formulas. We cover methods for achieving mixes that sound punchy, full and dynamic.

Learn about instrumentation and song arrangement, and how to identify and develop a song's strengths and "hooks".

If you own a recording studio (or have access to one), this course can help to take your recording, mixing and creativity to the next level.

Learn the fundamental principles and techniques of music production.

INTEC Digital Music Production Short Course Certificate

Career Starter

Programme Type

The INTEC Digital Music Production Short Course Certificate is part of the INTEC Career Starter Series. The INTEC Digital Music Production Short Course Certificate is an INTEC short course, which is not an accredited NQF qualification.

Career Opportunities
